To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. I object in particular to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I hope you will decide in favor of real people who need customized care for good health rather than for large, multimillion-dollar pharmaceutical houses who want to capture this market by forcing out the individuals who have long known that "one size does not fit all."

Very sincerely,

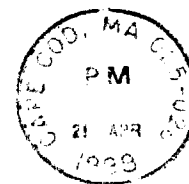

Sally R. Bermudes
